- Costs:** \$50 (includes lunch, transportation and snacks)
- Registration:** Register your participation for the 'Young Adults Workshop online by Friday November 16 , 2018 (reeffutures2018.com)

At this important time we would like to share with you a wonderful opportunity for youth from Florida to be a part of an international coral reef restoration and interventions symposium in December, 2018. Reef Ecologic, together with the Coral Restoration Foundation, NOAA and Florida Keys National Marine Sanctuary are hosting this youth leaders workshop, Reef Restoration and Its Relevance to the Next Generation, to discuss and share ideas on reef restoration and solutions to improve the health of the world's reefs and oceans. This is a wonderful opportunity to engage a select few of the next generation to discuss restoration options for the coral reefs and how they may become active participants in future restoration initiatives.
