Orpheus Island - Citizen science iNaturalist project

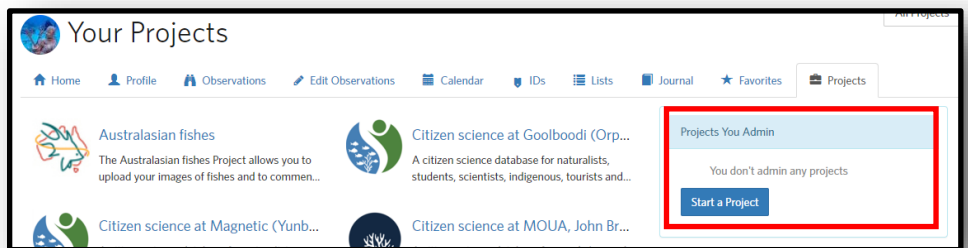

Magnetic Island - Citizen science iNaturalist project

Wonder Reef (Gold Coast) - Citizen science iNaturalist project

**How to create or join a project?**

You can create your own project by going to your profile, click on project, then hit the start a project button

Or you can join existing projects by looking them up on the search bar or scan/ click the code below to join one of the largest iNaturalist projects in Queensland.

**Fish of Queensland**

**About** Join 9

A compilation of citizen science observations of ray-finned fish in Queensland. This is an educational resource to share knowledge about species identification, distribution and assist scientists and managers. Did you know the Barrier Reef Anemone Fish (Amphiprion akindynos) was officially named as Queensland's
